Q. *Where in New York does Martha Mitchell live? Is it true that if her husband, John, doesn't behave himself, she will blow the whistle on him in her book in which she promises to tell all?—George H., Staten Island, N.Y.*

A. Martha and John Mitchell live in the Essex House in New York City. Martha is unpredictable. If and when she writes her book, chances are she will incriminate no one, least of all husband John.
